
TAHITI

Exclusive wallcoverings

This collection is inspired by the colourful artwork of the French painter Paul Gauguin and his life on the Polynesian island Tahiti at the end of the 19th century.

Gauguin´s pursuit of austerity and nativeness found analogy in Tahiti´s opulent vegetation and the simple life of the islander.

The expressive designs of this collection generate a perfect scenery for an exotic dream world. All painted by hand on a rustic canvas the designs are very genuine and artistic. The images of natural materials such as woven grass and leather complete this theme in an excellent way.

Be enchanted and create your own private island.
